## **World-Class Treatment**

01

- ☐ Emission spectrum445–470nm(FWHM)
- ☐ Uniform intensity >40µW/cm²/nm
- ☐ Effective treatment area 50cm x25cm

#### Integrated Design

Excellence is designed for versatility of use. Brilliance can be integrated with other critical medical equipment such as infant warmers, incubators, and nearly any variety of bassinet.

# **Energy Efficient**

Excellence consumes less than half the power of CFLs.

### Minimal Maintenance

Excellence LEDs last 60x longer than compact fluorescent lamps (CFL) commonly used in phototherapy devices. With Excellence, hospitals can save over \$240 USD per year on costly bulb replacements. Also, Excellence uses a medical-grade power supply and can withstand a wide range of power fluctuations without changes in device performance.

Make in India, designed in India

Performance	
Illumination source	24 - Blue LEDs
Peak spectral irradiance	>40µW/cm²/nm at recommended treatment distance measured with Ohmeda Medical BiliBlanket II Meter
Peak wavelength	450 -455nm
Emission spectrum	445–470nm (bounds of FWHM range)
Effective surface area	50cm x 25cm (at recommended treatment distance)
Irradiance ratio	>0.4 (minimum /maximum irradiance)
Time totalizer	Machine run time totalizer + Therapy time totalizer

Physical / Electrical	
Overall Dimensions	Height x Width x Depth: 123cm x 49cm x 49cm
Light Unit Dimensions	Length x Width x Depth: 37cm x 28cm x 7.5cm
Total Unit Mass	12 kg
Footprint of Stand	Length x Width x Depth: 49cm x 49cm x 12cm
Height of base	< 10cm
Castors	4 castor in 2"
Height adjustment range	118cm–165cm (distance between bottom surface and ground)
Recommended treatment distance	45cm
Electrical supply  • Voltage  • Frequency	(Medical grade) 100 – 240 VAC ~ 50/60Hz
Max power consumption	72 W
